## ABERDEEN DENTAL ASSOCIATES MOST EXPERIENCED PATIENT

It's not every day you meet a centenarian. Violet Moore hasn't been a patient for all those years, obviously, but we have been blessed with her visits. Violet lives near Groton and still leads an active life with her family out on the family farm. Congratulations Violet, we look forward to your next visit! Keep smiling!

## DR. HODGSON SAYS GOODBYE

After almost 40 years, Dr. Thomas Hodgson is retiring from a fulfilling career at Aberdeen Dental Associates. He was one of our founding dentists and helped set the stage for a dental practice centered on the kindest, best care for our patients.

What does this mean to you, a patient of Dr. Hodgson? For starters, your assistants, Mae and Janet will continue to see you. As you may know we have four other equally qualified dentists at ADA and you can discuss whom you'd like to see. This includes Jim, Donn, Kris and Joe.

Dr. Hodgson is a native of Cavalier, ND. In 1972 he graduated from the University of Minnesota School of Dentistry and

began practicing in Aberdeen in the spring of 1972. He joined forces with Dr. Hille to create what is now Aberdeen Dental Associates. You may recall their first office was located in the Ronayne Building on Washington Street. In 1977, the office relocated to their current office on 6th Avenue.

All of us at Aberdeen Dental Associates would like to wish Dr. Hodgson a retirement full of relaxation and fun. He plans to do some traveling, golfing, but is most looking forward to being at the lake and spending time with his children and grandchildren. Thank you Dr. Hodgson for your guiding vision to make Aberdeen Dental Associates Aberdeen's most respected dental practice.

## ADA CELEBRATES A MILESTONE

We are so pleased to be celebrating our 40th anniversary in business here in Aberdeen. Next year, 2012 is the beginning of our 40th year of providing excellent dental care to you and your family. How have we made it this long? Mainly because of you.

Without patients like you who understand the long-term importance of dental care and consistent oral hygiene we could not have lasted so long. Also our team of committed dentists, hygienists, and support staff have contributed to our success and longevity with their loyal commitment and service to our practice.

Family referrals have been one of the biggest areas of growth for us. All of us here enjoy the multiple generations we serve from many families. We appreciate your trust in us and please continue to let others know about us.

What's in store for our future? As you've already read, Dr. Thomas Hodgson is retiring at the end of 2011 so some changes are already happening. Stay tuned for more news on our future developments.

Thank you to the community of Aberdeen and the surrounding area for a great 40 years. We will continue to be here well into the future.
